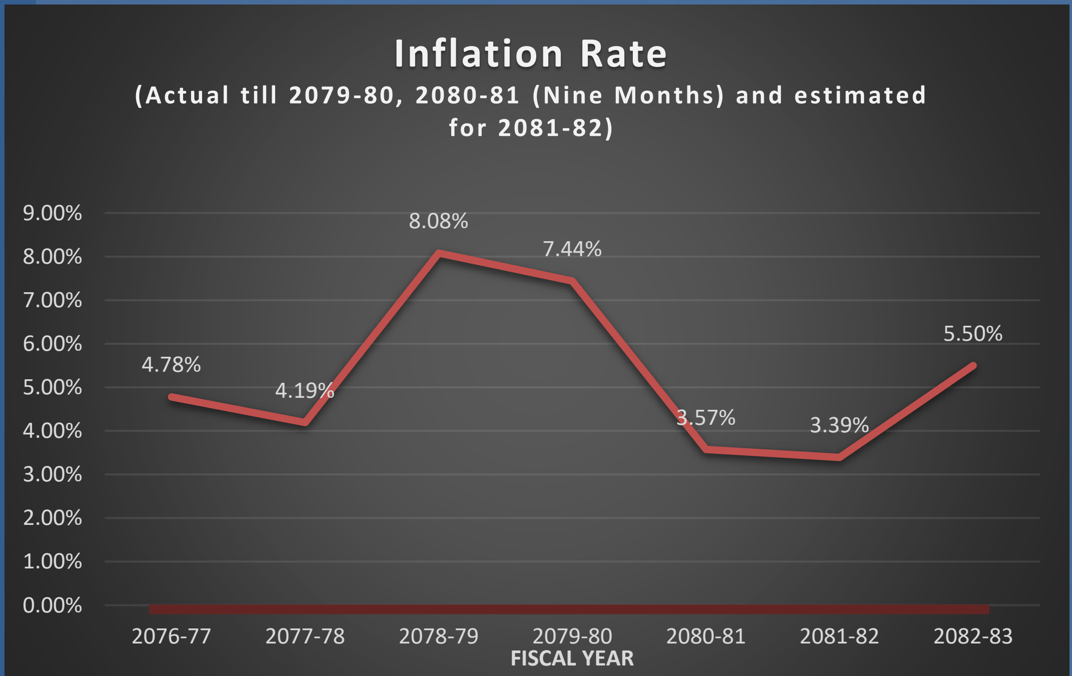
OBJECTIVE OF BUDGET

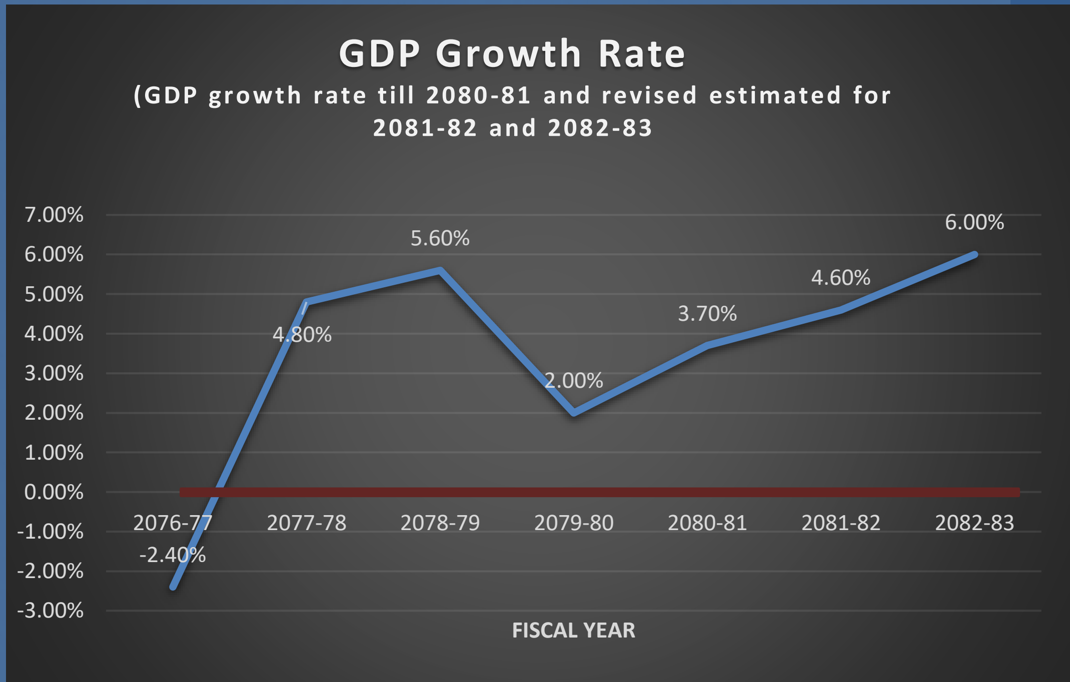
1. Eradicate poverty by achieving high, sustainable and broad economic growth.
2. Create employment by promoting entrepreneurship and expanding public and private investment.
3. Enhance economic capacity through increased use of modern technology.
4. Maintain social justice through social protection and development.
5. Promote quality public services and good governance.

ECONOMIC OVERVIEW

Economic Overview

The Nepalese economy faced significant challenges in the current fiscal year 2081/82, that hindered expected economic expansion. Reduced consumer demand, low credit growth, underutilization of productive sectors, and a decline in imports resulted in the preliminary economic growth estimate being just 4.6% in real terms. Price rises were restrained at 3.4% in Chaitra 2081 (Mid-April 2025). External trade figures were also disappointing, with imports increasing by 12.2% and exports increasing by 65.2% as of Chaitra End . However, the balance of payments surplus stood at Rs. 346.23 billion, and foreign exchange reserves increased by USD 17.63 billion up to 13 April 2025 (Chaitra End 2081). Remittance inflows grew by 10% and reached Rs. 1,191 Billion as on Chaitra End 2081 (First Nine months of this fiscal year).





BUDGET OVERVIEW

Budget Overview

On the fiscal front, the revised estimate for total government expenditure in the fiscal year 2081/82 is Rs. 1,662.37 billion (89.4% of the allocated budget). Revenue collection is projected to reach Rs. 1,267.39 billion, with foreign grants and loans estimated at Rs. 34.34 billion and Rs. 145.44 billion, respectively. To finance the expenditure, the government had initially planned to raise Rs. 330 billion through domestic borrowing, but as of Baisakh-2082, Rs. 360 billion has been raised, which is more than initially estimated.

The expenditure estimates for the year 2082/83 is 5.58% higher than the current fiscal year's allocation and 18.15% higher than the revised estimate. During this year, the federal government has allocated Rs. 582.83 billion for financial transfers (tax and non-tax) to provinces and local levels.

Budget Allocation for Fiscal Year 2082-83

Expenditure Head	Amount (Rs. in Billion)	Percentage
Capital Expenditure	407.89	20.77%
Current Expenditure	1,180.98	60.13%
Financial Provisions	375.24	19.10%
Total	**1,964.11**	**100%**

Tax?

Tax Amnesty Schemes 2082-83

Special Provision for Freight Charges/Rent Charges on Transport Vehicles

If a transport service provider has rented transportation vehicles from a natural person not having a PAN and used them in the course of its transport business during fiscal years 2078/79, 2079/80, and 2080/81, and if the rent payments were made after deducting tax at source (TDS), such rent expenses shall be allowed as a deductible expense from the taxable income of the respective income year.

Special Provisions on the Transfer of Retirement Fund

Contributions deposited in an existing approved retirement fund must be transferred to one of the four approved funds—Employees Provident Fund, Citizen Investment Trust, Social Security Fund, or Retirement Fund—by the end of Ashad, 2083. If the total amount of contributions, along with the interest income accrued thereon, is transferred to any of these four funds within that deadline, no withholding tax shall be deducted from the transferred amount under the Income Tax Act, 2058.

Special Provisions for Social Institutions Regarding Exemptions on Fines, Additional Charges, Fees, and Interest

Community Hospital, Health Institution and Transport related institution/organization registered under the Association Registration Act, 2034, whose tax assessment or reassessment have been done by the concerned tax office under the Value Added Tax Act, 2052, the Income Tax Act, 2058, and applicable Finance Acts for any tax liabilities incurred before Jestha 15, 2082, shall be eligible for a waiver of fines, fees, charges, and interest if the outstanding tax amount is fully paid by the end of Poush, 2082 B.S.

Exemption to taxpayers who have undergone tax assessment for not submitting income statements

Persons subject to amended tax assessments under Section 101 of the Income Tax Act, 2058 due to non-filing of returns may submit the required return and/or pay the due tax by the end of Poush 2082. If a return is submitted under such assessment, the tax office may reassess the taxpayer and issue a revised assessment by the end of Ashad 2083, without being bound by the four-year reassessment limitation under Section 20(4) of the VAT Act, 2052 and Section 101(2) of the Income Tax Act, 2058. Previous amended assessment orders will not be implemented.

Concession for change of Ownership

If a resident entity whose ownership has changed and taxation has been imposed under Section 57 of the Income Tax Act, 2058, and another resident entity having interest in such entity has outstanding dues due to amended tax assessment based on such ownership change, if such entity submits the assessed tax amount by the end of Ashad 2082 BS, the interest and penalty under such amended tax assessment shall be waived.

Special Provisions Related to Income Tax on Public and Private Vehicle Deregistration

For the purpose of vehicle deregistration, if income tax for fiscal years 2081/82 and 2082/83 is paid by the end of Poush 2082 in respect of public or private vehicles that are over twenty years old or are no longer operational, any outstanding income tax and interest liabilities for periods prior to fiscal year 2081/82 shall be waived. the fiscal year 2081-82 shall be waived.

Special provisions for taxpayer who fails to pay VAT liability.

A person registered under the VAT Act, 2052 who has not submitted the VAT return and/or has outstanding VAT dues as of Chaitra end, 2081, shall be eligible for full waiver of penalties, additional fees, and remaining interest if the outstanding VAT and 25% of the interest amount are paid by end of Poush, 2082.

Special provisions for International Air Transport Service Providers and Ticket Service Provider.

International Air Transport Service Providers who had not been registered in VAT as required shall be granted a full waiver of interest, fines, and additional fees from 1st Kartik 2080, provided that VAT registration is completed and all outstanding VAT liabilities are settled by the end of Ashwin 2082.

This exemption shall also apply to International Air Ticket Service Providers—regardless of whether they are currently registered for VAT—who failed to collect or remit VAT.

Furthermore, all VAT liabilities, including interest and fees, accrued prior to 1st Kartik 2080 shall be waived.

Special provisions for Foreign Digital Service Providers

A foreign person providing digital services in Nepal pursuant to Section 16 of the Finance Act, 2081 and registered under Section 10(kha) of the VAT Act, 2052, and complying accordingly, shall not treated as a Permanent Establishment under Section 2(ka da(5)) of the Income Tax Act, 2058.

Special Provisions Related to Refund of Cash Deposit or Release of Bank Guarantee (Export)

Industries that imported raw materials under bank guarantee facilities or passbook facilities, manufactured and exported finished goods within legal timeframes, but whose deposits or guarantees remain unreleased, if files and application with supporting documents by the end of Mangsir 2082 such cash deposit or guarantees may be released.

Special Provisions Related to Refund of Cash Deposit **(Marble and Granite Industry)**

Industries that have imported marble blocks (subheading 2515.12.00) or granite blocks (subheading 2516.12.00) not satisfied with the goods classification made by the customs officer, having deposited the undisputed amount and disputed amount, and having submitted an application to the Customs Department for review of such goods classification or not being satisfied with the classification decision made by that department, filed an appeal in the court, if the concerned industry withdraws such application or appeal by the end of Mangsir 2082, the disputed deposited amount shall be refunded.

Special Provisions Related to return of **Container**

Shipping containers seized or not seized by the custom office, owned by domestic or foreign shipping companies and are in the customs premises for a long time shall be returned to the respective shipping companies without any charges or demurrage if the companies submit applications by the end of Mangsir 2082.

Facility to import under bank guarantee to hydropower projects

Hydropower projects that receive technical approval for capacity enhancement and design modification, or their contractors or promoters, may import necessary construction equipment, machinery, tools, explosives, penstock pipes, and steel plates under a bank guarantee facility, based on a recommendation from the Department of Electricity Development, covering customs duty and VAT. Following import, the project must apply to the customs office for a refund of the bank guarantee with departmental endorsement. Upon verification, the customs office will collect 1% customs duty, waive the remaining customs duty and VAT, and refund the bank guarantee.

Special provisions for taxpayer who fails to file Excise Return.

A person registered under the Excise Duty Act who has not submitted the Excise return and/or has outstanding Excise dues as of Chaitra end, 2081, shall be eligible for full waiver of penalties, fine, and remaining late fees if the outstanding Duty and 50% of the late fees amount are paid by end of Poush, 2082.

Amendment in Income Tax Act

Contribution-Based Retirement Payment

Definition of Contribution based retirement payment has been revised under section 2(ai1),'Contribution-based retirement payment' means the payment of the amount deposited in the approved retirement fund from the income of a natural person, including the increment on such amount.

Removal of Digital Presence Provision from the Permanent Establishment

The definition of "Permanent Establishment" under section 2(bb)(5), has been removed. Now, person residing outside Nepal having significant digital presence in Nepal or if data or services are transacted in Nepal for at least 90 days in last twelve months by maintaining a server outside Nepal, such place will not be treated as permanent establishment.

Selection of Taxpayer Category for Tax Application

To apply the presumptive tax and the turnover-based tax under Section 4 of the Income Tax Act, a taxpayer must explicitly choose the relevant taxpayer category for the applicable income year. Otherwise, the small individual taxpayer having turnover up to 1 crore rupees shall paid tax on their income rather than presumptive tax.

Startup Turnover Threshold Changed

Startup businesses designated by the department that generate annual turnover up to ten crores shall be exempted from tax for five years from the date of commencement of business. Previously this turnover threshold was only Rs. 1 crore.

Tax Expansion for Hotel, Resort and IT

Businesses operating in the Hotel, Resort, and Information Technology sectors are eligible for a 20% tax exemption under Section 11(2)(2kha) and 11(3) of the Income Tax Act. As a result, the effective tax rate for entities engaged in these industries has been reduced from 25% to 20%. Additionally, these industries are entitled to claim accelerated depreciation—i.e., one-third of the applicable depreciation rate is added to the standard rate—as provided under Schedule 2 of the Act.

Increase in Tax Exemption for IT Business

The exemption for industries involved in software development, data processing, cyber cafes, and digital mapping established within zoological, geological, biotech parks, or technology parks designated by the Government of Nepal under Section 11(3Ga) has been increased to 75% from 50%.

Tax Exemption for Green Hydrogen and Electric Vehicle Charging Equipment Manufacturing

Industries engaged in the production of green hydrogen or in the manufacturing and assembly of electric vehicle charging machines are eligible for a 100% tax exemption for the first five years from the date of their commercial production.

Tax Exemption for Development of Industrial Areas

Any person that constructs, establishes, and operates an industrial area or industrial village is entitled to a 100% tax exemption for the first ten years, followed by a 50% exemption for the subsequent five years from the commencement of business operations.

Removal of Advance Tax Collection at Customs and Related Provisions

Previously, advance income tax was collected at the customs point on various business-related imports, including agricultural products, at rates ranging from 1.5% to 10%. Although this advance tax could be set off within the same income year, it could neither be carried forward nor refunded. Any excess amount was allowed only as an expense deduction.

With the recent amendment, all provisions related to advance tax collection at customs points, as well as the restrictions on refund and carryforward of such tax, have been removed.

Income from Vehicles Treated as Final Withholding Income

Earlier, income earned by natural persons (excluding sole proprietorships) from the rental of vehicles or provision of carriage services was treated as final withholding income.

Under the new amendment, all income from vehicle rentals and carriage services—where the taxpayer pays presumptive tax—will now be treated as final withholding income, including those earned by sole proprietorship firms. This marks a significant change, as sole proprietorships were previously excluded from such treatment.

Definition of "Liability Incurred in Nepal"

The definition of "liability incurred in Nepal" is amended. Previously defined broadly as "a liability of a resident person," the amended provision now specifies it as:

"A liability incurred by a resident person as a result of activities carried out in Nepal."

This refined definition provides greater clarity for the application of tax provisions relating to liabilities.

Amendment Regarding Approved Retirement Funds

A recent amendment has reclassified all retirement funds operated by the private sector—excluding the Employees Provident Fund, Citizens Investment Trust, Pension Fund, and Social Security Fund—as unapproved retirement funds. Consequently, any funds managed by private-sector must be transferred to one of these four approved funds by the end of Ashad 2083. In addition, contributions made to these now-unapproved retirement funds will not qualify as deductible expenses when calculating an individual's taxable income.

Filing of Income Tax Return and Penalty for Individual Taxpayers

Individual taxpayers whose annual income is exceeding forty lakhs rupees are not registered as business taxpayers will face a penalty if they fail to file their income tax return for any income year. The penalty imposed will be the higher of the following: 0.1% per year of the assessable income after deducting final withholding payments; NPR 1,200 per return; or NPR 100 per month for periods shorter than a year. In addition, when filing returns, individuals without business income are now exempt from declaring retirement payments, in addition to the previously exempt meeting allowances and interest income.

Removal of Accelerated Depreciation for Cooperatives

Previously, cooperatives engaged in taxable transactions were eligible to claim one-third accelerated depreciation under Schedule 2 of the Income Tax Act. This benefit has been eliminated under the latest amendment, meaning cooperatives can no longer claim accelerated depreciation as they could before.

AMENDMENT IN VAT ACT

Amendment in VAT Act, 2052

Revised Definition of Electronic Service

The recent amendment has refined the definition of "electronic service" by removing "advertising services" from its scope. In its place, the amendment specifies that electronic services refer to services delivered to users via information technology with minimal human involvement, operating in an automated manner over the internet. The services now explicitly included under this definition are:
(a) Paid personal promotional services, and
(b) Targeted online advertisement services.

Immediate Cash Incentive Refunds

Previously, consumers who made payments for goods or services through electronic means were eligible to receive a cash incentive refund equal to 10% of the VAT amount paid, which was deposited into their personal bank account. The recent amendment modifies this provision by stipulating that the refund will now be made immediately to the buyer at the point of transaction, eliminating the requirement of depositing the amount into a personal bank account.

Addition of Fine and Penalty

A new penalty provision has been introduced for conducting business without registering a branch or warehouse. A fine of NPR 10,000 will be imposed for each such instance.
Additionally, if a taxpayer continues to operate a business during a period when their business is suspended due to non-filing of VAT returns for six consecutive months, they will be subject to severe penalties. These include a fine equal to 100% of the tax amount due, imprisonment for up to six months, or both.

Excise Duty

Renewal of License

The recent amendment introduces a revised penalty structure for failure to renew a license on time. For licensed persons—excluding those engaged in production or import—who fail to renew their license, a fine of 25% of the renewal fee will be levied if the renewal is done within the first three months following expiration. If renewed in the subsequent three months, the fine increases to 50%, followed by 75% if renewed in the next three months. Thereafter, a fine equal to 100% of the renewal fee will apply for the remaining period of the fiscal year and for each renewal period thereafter.

For persons holding licenses related to production or import, the penalties are stricter. If such licenses are renewed within the first three months of expiration, a 50% fine applies. This increases to 100% if renewed in the following three months, and to 200% for the remaining period of the fiscal year and for each license period thereafter.

Previously, the deadline for license renewal was fixed, after which licenses that were not renewed within the prescribed time were subject to automatic cancellation. The recent amendment removes both the fixed deadline and the provision for automatic cancellation, allowing for indefinite renewal with applicable fines.

Excise Duty License and Renewal Fee Increased:

In the past, the excise duty license fee and the renewal fee were the same. However, starting this year, the license fee has been significantly increased, and the renewal fee has also been revised for certain licenses. Details of the updated license and renewal fees are provided in Annex III of this publication.

Addition of Fines and Penalty

If anyone produces, bottles, stores, packages, or sells/distributes liquor or tobacco-based products in violation of the terms specified by the act, rules or directives, such a person shall be punished with a fine in a sum equivalent to two hundred percent of the claimed amount or one lakh rupees, whichever is higher or with imprisonment for a term not exceeding one year or with both punishments for such offence and the claimed amount shall also be seized.

Seizure of Equipment and Vehicles Used in Offence

Any utensils used directly or indirectly with the offense, tools machines, equipment and motor vehicle used to manufacture or make goods or service shall also be confiscated.

Packaging of Tobacco Products Other Than Cigarettes and Bidi:

License holders are required to package tobacco products—excluding cigarettes and bidi—in the prescribed weights and packaging as specified by the relevant regulations.

Special Exemption

Major Highlights for Exemption of VAT, Excise and Customs Duty:

- Construction equipment, machinery, tools, high-capacity batteries, related parts, and raw materials (like steel sheets) required for hydro, solar, and wind power projects are exempt from excise duty when imported and supplied by the project, its contractor, or promoter. The exemption is granted based on recommendations from the Investment Board, Alternative Energy Promotion Center, or Ministry of Energy Development, depending on the approving authority.

- Equipment, machinery, tools, parts, and construction materials required for the construction or establishment of industrial areas or industrial villages shall be exempt from excise duty when imported by the developer or their contractor, based on a recommendation from the Investment Board. However, such recommendations must align with the quantities specified in the detailed engineering design report.

- Industries engaged in the production or assembly of electrical equipment or charging machines shall be granted excise duty exemption when importing upon the recommendation of the Ministry of Industry.

- Mill machinery required by industries engaged in seasoning of wood and wood products shall be granted excise duty exemption when imported upon the recommendation of the Ministry of Industry.

- For the construction of football, cricket, and multi-purpose stadiums, excise duty exemption will be given on necessary machines, equipment, and tools on the recommendation of the Ministry of Youth and Sports.

- For the production of green hydrogen, excise duty exemption will be granted on required machines, equipment and devices upon recommendation from the Ministry of Energy and Water Resources.

Amendments in Custom Duty

- Customs duty shall be levied on re-importation of previously exported goods provided:
  - The goods were used for any purpose other than identifying whether they were defective or inconsistent with the contract terms.
  - It can't be verified that the goods being re-imported are the same as those that were exported.
  - The goods are not re-imported within 180 days from the date of export.
  - If the goods cannot be brought back within 180 days, an application must be submitted to the Customs Officer, who may extend the period by up to 90 additional days.
- Once customs duty has been paid for goods clearance, the importer cannot claim any rebate available to them.
- For temporary exports, a security deposit or bank guarantee equal to 1% of the value of the goods must be submitted. Previously, this was equivalent to the export duty amount.
- If goods are temporarily exported for repair and maintenance, the customs officer can extend the return deadline up to two years, either in a single instance or multiple times.
- The earlier provision allowing interest calculation only up to 30 days from import approval has been repealed. Now, interest can be calculated up to the actual payment date.
- Import of auxiliary raw materials and packaging materials not produced in Nepal is now permitted with bank guarantees or cash deposits. These guarantees can cover not only customs duties but also agricultural reform fees.
- Duty-free shops must now provide an additional 15% bank guarantee when importing under duty-free arrangements. Previously, no such additional guarantee was required.
- Foreign travelers carrying more than the prescribed quantity of gold or silver ornaments can declare and store the excess properly and are allowed to take it back upon departure.

Green Tax (हरित कर)

For goods imported in Nepal, Green Tax will be levied and collected **at customs point.**

Coal, Coke - Rs. 0.5/Kg

Petrol/Diesel - Rs. 1/Ltr.

Fuel Oil
Furnace Oil - 0.5%
Base Oil

Machinery, tools, and other related equipment required for manufacturing, as well as related materials such as chemicals, plastics, and components used in production by the industrial enterprise, shall be exempted from customs duties and other taxes if imported by the industrial enterprise for production purposes, provided they are imported within the prescribed timeframe and according to the specified procedure.

The exemption shall be granted under the following conditions:

(a) Approval must be obtained from the investment board for operation of electricity projects including water, solar, thermal, and bioenergy projects, and the approved projects must be operated accordingly. Optional renewable energy centers approved by the board shall also be operated accordingly. The approved electricity development projects must comply with the prescribed timeframe.

(b) The industry producing organic fertilizer and organic pesticides shall be granted exemption within the prescribed timeframe.

(c) Exemption will also apply to the industrial sector and the industrial park development and construction approved by the investment board within the prescribed timeframe.
